

CONSTRUCTION NOTICE

February 25, 2016

GREENWOOD TRANSIT AND SIDEWALK PROJECT – N 90TH ST TO N 105TH ST

Bus island construction will begin in March

Crews will soon finish installing new sidewalks and other improvements on the east side of Greenwood Ave N north of N 100th St. Construction activity in March is expected to progress as follows:

1. **East side improvements:** Install the bus islands and remaining improvements. Conduct final paving, including filling gaps between the roadway and curb. Crews will complete the work between N 97th St and N 105th St first, then shift the traffic detour south to complete the work between N 92nd St and N 97th St.
2. **Traffic adjustments:** Once east side work is complete, crews will shift southbound traffic to the center lane to make room for a safe work zone on the west side; bicycles will continue to merge with traffic. King County Metro will provide temporary bus stops for N 97th St and N 92nd St. Northbound traffic will use the regular northbound lane.
3. **West side improvements:** Install the bus islands and curb ramps at N 97th St and N 92nd St. Crews will also install a curb ramp at N 102nd St and other improvements at N 95th St. Conduct final paving, including filling gaps between the roadway and curb.

As equipment and materials become available, crews will plant trees, add soil to landscaped areas, and complete other finish work. Sidewalks on the east side of Greenwood Ave N will remain open; on the west side, intermittent pedestrian detours may be needed. The project is on schedule for completion this spring, with most of the remaining work expected to take place over the next 2 months. Crews may be on-site cleaning, conducting inspections, and completing finish work into June.

WHAT TO EXPECT DURING CONSTRUCTION

- Work hours Monday through Friday, 7 AM to 4 PM
- Noise associated with construction equipment
- Pedestrian detours; bicyclists merge with vehicles
- Potential restrictions to parking and side street access
- Reduced speed limits through project area
- Traffic cones and flaggers to direct traffic

Legend

- Existing bus stops
- Bus stops to be upgraded
- Bus stops to be closed at project completion

Map not to scale
